PROFILE

Computer Science graduate with hands-on experience developing full-stack web applications, SaaS platforms, REST APIs, and AI-powered solutions. Proficient in JavaScript, TypeScript, React, Next.js, Node.js, NestJS, Python, and relational and NoSQL databases. Experienced in building responsive user interfaces, backend services, third-party integrations, authentication workflows, data-driven dashboards, and cloud-deployed applications. Strong foundation in data structures, algorithms, debugging, and software development practices, with an interest in building scalable, reliable, production-oriented software.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, Java, SQL

Frontend: React.js, Next.js, Angular, HTML5, CSS3, Tailwind CSS, Redux

Backend: Node.js, Express.js, NestJS, FastAPI, Django, REST API Development

Databases: PostgreSQL, MongoDB, MySQL, Supabase, Firebase, Redis

Cloud & Deployment: AWS, Microsoft Azure, Google Cloud Platform, Vercel, Cloudflare

DevOps & Tools: Docker, Kubernetes, Git, GitHub, GitHub Actions, CI/CD, Postman

AI & Integrations: LangChain, RAG, AI Agents, MCP, OpenSearch, OCR, OAuth, JSON, API Integrations

Development Practices: Data Structures & Algorithms, Object-Oriented Programming, Authentication, Database Design, Responsive Web

EXPERIENCE

Software Development Intern | EcoReady, Germany (Remote) | Jul 2025 – Dec 2025

- Contributed to the development of SaaS applications using Next.js, React, TypeScript, NestJS, and PostgreSQL.
- Developed and integrated backend APIs to support application features and data exchange between services.
- Worked on OAuth-based integrations connecting external business platforms, including Gmail, Slack, HubSpot, and other supported services.
- Contributed to document-processing workflows involving OCR, automated tagging, and search indexing.
- Worked with OpenSearch and AI-powered retrieval workflows to enable efficient information discovery across processed documents.
- Investigated and resolved issues across frontend, backend, database, and third-party integrations.

PROJECTS

GreenTrace — AI-Native Full-Stack Platform | Live | Next.js, NestJS, Supabase (PostgreSQL), Stripe, Groq, MCP, Vercel

- Developed a full-stack sustainability platform featuring carbon footprint calculations, dashboards, goal tracking, and actionable sustainability plans.
- Implemented an AI-powered agent using a ReAct-style approach to support task-oriented interactions.
- Built a custom Model Context Protocol (MCP) server using JSON-RPC 2.0 to connect agent capabilities with application functionality.
- Implemented application workflows involving authentication, data persistence, and backend API integration and deployed using Vercel.

DataBoard — Data Analytics & Visualization Platform | Live | Python, FastAPI, Angular, TypeScript, PostgreSQL, ECharts, AWS

- Built a data analytics platform with interactive dashboards and visualizations.
- Developed backend services using Python and FastAPI, integrating PostgreSQL through SQLAlchemy.
- Created data visualization components using ECharts to present analytical information.
- Deployed application infrastructure using AWS S3, CloudFront, EC2, and RDS PostgreSQL.

VIGIL — Industrial Safety Intelligence Platform | Live | Next.js, React, TypeScript, MongoDB Atlas, AWS, LangChain

- Developed an AI-powered industrial safety platform for risk monitoring, permit validation, and incident response.
- Implemented risk-scoring workflows and safety monitoring features using simulated industrial sensor data.
- Built a retrieval-augmented generation (RAG) workflow over historical incidents and regulatory documents.
- Implemented automated emergency reporting and alerting capabilities.

CERTIFICATIONS

- Google Cloud Certified: Associate Cloud Engineer | Sep 2026
- Microsoft Certified: Azure AI Apps and Agents Developer Associate | Aug 2026

EDUCATION

Bachelor of Technology – Computer Science and Engineering
Bharati Vidyapeeth (Deemed to be University), Navi Mumbai | 2021–2025 | **CGPA: 9.5/10**
